A NOTE FROM OUR THREE MISSION PARTNERS IN DOMINICAN REPUBLIC:

Our main focus and vision here in the D.R is church planting and because of that we try and filter every plan and activity we do through this “filter” with the purpose of seeing if it will result in possibly becoming one of the fruitful steps in the process of planting a new church. When teams and groups come from the states to partner with us we pray and determine how best the team could help us through using their God given gifts and talents in accomplishing some of the necessary steps in the process church planting.

PROJECT OBJECTIVE

We will be working with our three Mission Partners to help them reach their community for Christ. You will be directly involved in helping them plant a new church. We will be prayer walking in the areas where we will be performing. Then as we perform and the people gather to listen, we will have our national brothers and sisters in Christ passing out gospel tracts. Next after the performance is over we will have two or three of our team members give a two or three minute testimony with a translator.
